

MAKKAH CLOCK TOWER

Mecca, Saudi Arabia

MR-ProFun worked in Jeddah providing culturally sensitive start up support for the unique world class interactive and educational facility at the top of the world's second tallest building in the holy city of Mecca.

MR-ProFun was retained to provide the practical pre-opening support to the King Abdullah Center For Crescent Observation and Astronomy located in Mecca, Saudi Arabia. This amazing facility hosts a world-class journey of science and knowledge.

MR-ProFun was able to provide pre-opening business planning, development of facility standard operating procedures, recruitment support as well as design and delivery of exceptional training programs.

- Pre-Opening Support
- Business and Operations Planning
- Training and Service Excellence
